Gwaunfarren Primary School's approach to Curriculum Design

- A curriculum should be considered at the 'heart' of any school. Our curriculum is a cohesive way of thinking to achieve our vision. This ensure our learners are ambitious, enterprising, ethical and healthy citizens. Our curriculum is broad and balanced and suitable for learners of different ages, abilities and aptitudes. It provides for appropriate progression for learners and includes a range of provision to ensure this.

What does this look like for our learners?

We at Gwaunfarren aim to provide high quality teaching experiences, which excite and motivate children in the classroom and beyond. Teachers will be the facilitators of learning. Considering the needs, views and stages of learners they will design fun, challenging and progressive experiences. Pupils will have opportunities to influence their learning by developing “I wonder” questions from which their enquiry based learning can take place. Immersion days or hook experiences will spring board themes and pupils’ engagement is captured through awe and curiosity.

Our learners will have opportunities to work in ways that enhance their learning and also contribute to driving school improvement through pupil voice groups. Learners will participate in community projects, go on school trips, welcome visitors to the school and raise money for charities to also enhance their learning experiences.

Let's take a look at Gwaunfarren's curriculum road map...
